GM501 CULT WITH GENTAMICIN

SAFETY DATA SHEET GM501 CULT WITH GENTAMICIN

PAGE 1 OF 5

SECTION 1:	Identification of the s	ubstance	/mixture and of the company/undertaking						
	oduct identifier								
Product form		: 1	Mixture						
Product name			GM501 Cult mit Gentamycin						
Product code	code : 4 GM 501H+G-XX								
	Relevant identified uses of the substance or mixture and uses advised against								
	evant identified uses								
	essional use spec stance/mixture	: -	For professional use only. The media are ready-to-use bicarbonate-buffered Cult media, designed for fertilisation and for human embryo Cult from day 1 to blastocyst stage. It can also be used for embryo transfer.						
1.2.2. Use	s advised against								
	2. Uses advised against additional information available.								
1.3 Det	tails of the supplier of	f the mate	erial safety data sheet						
Gynemed Gmb Wagrienring 24 D-23730 Sierks Germany info@gynemed	4b sdorf								
	ergency telephone nu	umber							
Emergency nur			+49 (0)4561 51325 00						
SECTION 2:	Hazards identification	n							
2.1 Clas	ssification of the substa	nce or mix	ture						
Classification a Not classified	Classification according to Regulation (EC) No. 1272/2008 [CLP]								
	cochemical, human health information available.	and environ	mental effects						
2.2 Lab	oel elements								
Labelling accor No labelling ap	rding to Regulation (EC) No oplicable.	o. 1272/2008	3 [CLP]						
2.3 Oth	ner hazards								
No additional i	information available.								
SECTION 3:	Composition/informa	ation on i	ngredients						
3.1 Sub	ostance								
Not applicable									
-	xture								
Name Ultrapure	Product identifier (CAS No) 7732-18-5	% >90	Classification according to Regulation (EC) No. 1272/2008 [CLP] Not classified						
water	(EC No) 231-791-2	- 50	Not classified						
Sodium	(CAS No) 7647-14-5	< 1	Not classified						
Chloride Human	(EC No) 231-598-3 (CAS No) 70024-90-7	< 1	Not classified						
Serum	, , ,								
Albumin Sodium	(CAS No) 867-56-1	< 1	Not classified						
lactate	(EC No) 212-762-3		Not tidosineu						
Sodium Hydrogen	(CAS No) 144-55-8 (EC No) 205-633-7	< 1	Not classified						
Carbonate Glucose anhydrous	(CAS No) 50-99-7 (EC No) 200-075-1	< 1	Not classified						
Potassium	(CAS No) 7778-77-0	< 1	Not classified						
Dihydrogen (EC No) 231-913-4									
Phosphate Potassium	(CAS No) 7447-40-7	< 0,1	Not classified						
Chloride	(EC No) 231-211-8								
	(CAS No) 10035-04-8	< 1	Eye Irrit. 2, H319						
Calcium	(CAS NO) 10035-04-8								
Calcium chloride dihydrate	(CAS NO) 10055-04-8								
chloride	(Cas No) 6381-92-6 (EC No) 205-358-3	< 1	Acute Tox. 4, H302 Not classified

Comments						
	First aid measures					
	cription of first aid mea	curos				
First-aid measu	res general	:	Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).			
First-aid measu	res after inhalation res after skin contact	:	Assure fresh air breathing. Allow the victim to rest. Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.			
	res after eye contact		Rinse immediately with plenty of water for at least 15 minutes. Obtain medical attention if pain, blinking or redness persist.			
	res after ingestion		Rinse mouth. Do NOT induce vormiting. Obtain emergency medical attention.			
			s, both acute and delayed			
Symptoms/inju			Not expected to present a significant hazard under anticipated conditions of normal use.			
		e medical a	attention and special treatment needed			
	nformation available.					
	Firefighting measures	5				
	nguishing media					
Suitable extingu Unsuitable extin	uishing media nguishing media		Foam. Dry powder. Carbon dioxide. Water spray. Sand. Do not use a heavy water stream.			
5.2 Spe	cial hazards arising fror	n the subst	ance or mixture			
No additional in	nformation available.					
5.3 Adv	ice for firefighters					
Firefighting inst			Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.			
Protection duri	0 0 0		Do not enter fire area without proper protective equipment, including respiratory protection.			
	Accidental release m					
6.1 Pers	sonal precautions, prot	ective equi	pment and emergency procedures			
6.1.1 For r Emergency proc	non-emergency personnel cedures	:	Evacuate unnecessary personnel.			
6.1.2 For e Protective equip Emergency proc		:	Equip cleanup crew with proper protection. Ventilate area.			
	ironmental precautions					
	o sewers and public waters					
	Methods and material for containment and cleaning up					
Methods for cle		:	Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.			
6.4 Refe	erence to other section	5				
See Heading 8.	Exposure controls and per	sonal protect	tion.			
SECTION 7: I	Handling and storage					
7.1 Pred	cautions for safe handli	ng				
Precautions for		:	Wash Hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour.			
7.2 Con	onditions for safe storage, including any incompatibilities					

	REVISION:	08_00	GM501 CULT WITH GENTAMICIN
GYNEMED	VALID FROM:	24/07/2023	SAFETY DATA SHEET GM501 CULT WITH GENTAMICIN
			PAGE 3 OF 5
Storage conditions Incompatible products Incompatible materials	Keep container closed w Do not freeze. Do not use after expiry o The product can be sa		e. y used up to 7 days after opening the container when sterile and the products are stored at 2-8°C. zed after opening.
Storage temperature 7.3 Specific end use(s)	: 2-8°C		
See instruction for use delivered with the c	evice.		
SECTION 8: Exposure controls/pe	sonal protection	on	
8.1 Control parameters			
No additional information available.			
8.2 Exposure controls			
Appropriate engineering controls	: Handle exposu		th good industrial hygiene and safety. Avoid all unnecessary
Personal protective equipment Skin protection	: Wear fi : Comple The typ	re/flame resistant/r ete suit protecting pe of protection mu	retardant clothing. against chemicals, flame retardant antistatic protective clothing. Ist be selected according to the concentration and volume of the e specific workplace.
Hand protection	technic Dispose laborat The se	ue (without touchi e of contaminated ory practices. Wash	oves have to meet the specifications of EU-directive 89/686/EEC
Eye/Face protection			ses. Use equipment for eye protection tested and approved under andards such as NIOSH (US) or EN 166 (EU).
Respiratory protection	: Wear approp 14387) means	appropriate mask. riate use a full-face respirator cartridge of protection, use a	Where risk assessment shows air-purifying respirators are respirator with multi-purpose combination (US) or type ABEK (EN es as a backup to engineering controls. If the respirator is the sole a full-face supplied air respirator. Use respirators and components er appropriate government standards such as NIOSH (US) or CEN
Other information	: Do not	eat, drink or smoke	during use. Do not pipette liquid using a mouth pipette.
SECTION 9: Physical and chemical	properties		
9.1 Information on basic physic		properties	
Physical state Colour	: Liquid : White/	yellow transparant l	iquid
Odour	: Odourl	ess	
Odour threshold pH	: No data : 7.20 – 1	a available 7 45	
Relative evaporation rate (butylacetate=1)		a available	
Melting point		a available	
Freezing point		a available a available	
Boiling point Flash point		a available	
Auto-ignition temperature		a available	
Decomposition temperature	: No data	a available	
Flammability (solid, gas)		mmable	
Vapour pressure		a available	
Relative vapour density at 20°C Relativ density		a available a available	
Solubility		soluble in water.	
Log Pow		a available	
Viscosity, kinematic		a available a available	
Viscosity, dynamic Explosive properties		a available	
Oxidising properties		a available	
Explosive limits	: No data	a available	
9.2 Other information			
No additional information available.			
SECTION 10: Stability and reactivi	ty		
10.1 Reactivity			

REVISION: 08_00

SAFETY DATA SHEET GM501 CULT WITH GENTAMICIN

PAGE 4 OF 5

No additional information available.							
10.2 Chemical stability							
Stable after transport (max. 5 days) at elevated temperature (\leq 37° C). Stable for 6 months from date of manufacture.							
10.3 Possibility of hazardous reaction							
Not established.							
10.4 Conditions to avoid							
Direct (sun)light. Extremely high or low tempe	ratures.						
10.5 Incompatible materials							
Strong acids. Strong bases.							
10.6 Hazardous decomposition proc	ducts						
Carbon monoxide. Carbon dioxide.							
SECTION 11: Toxicological information	on						
11.1 Information on toxicological ef	fects						
Acute toxicity Skin corrosion/irritation Serious eye damage/irritation Respiratory or skin sensitisation Germ cell mutagenicity Carcinogenicity Reproductive toxicity Specific target organ toxicity (single exposure) Specific target organ toxicity (repeated exposure) Aspiration hazard Potential adverse human health effects and symptoms Other information	 Extensive data on Mouse Embryo Assay have demonstrated that the medium is not toxic. Not classified Human Serum Albumin: The plasma which is the source of the human serum albumin is tested for antibodies to HIV and HCV and non-reactive for HbsAg, HBV RNA, HCV RNA, HIV-1 RNA and syphilis. The albumin agrees with all the requirements set forth by the European and United States health authority regarding safety. 						
	Route of exposure: Under normal conditions there is no exposure to the product						
SECTION 12: Ecological information
