SAFETY DATA SHEET GM501 SPERMSTORE

PAGE 1 OF 5

SECTION 1:	SECTION 1: Identification of the substance/mixture and of the company/undertaking				
1.1 Pro	duct identifier				
Product form:MixtureProduct name:GM501 SpermStoreProduct code:4 SCP-20			GM501 SpermStore		
1.2 Rel	levant identified uses of the substance or mixture and uses advised against				
	want identified uses				
Industrial/Professional use spec : Use of the substance/mixture :			For professional use only. GM501 SpermStore is a medium for freezing human sperm including epididymal or testicular sperm.		
1.2.2. Uses advised against					
No additional information available.					
1.3 Details of the supplier of the material safety data sheet Gynemed GmbH & Co. KG Lübecker Straße 9 D-23738 Lensahn Germany info@gynemed.de Details of the supplier of the material safety data sheet					
1.4 Em	ergency telephone n	umber			
Emergency nur			+49 (0)4363 90 32 90		
SECTION 2:	Hazards identification	n			
2.1 Clas	sification of the substa	nce or mix	ture		
Not classified	ccording to Regulation (EC				
No additional in	ochemical, human health nformation available.	and enviror	nmental effects		
	el elements				
No labelling accor	ding to Regulation (EC) No plicable.). 1272/2008	8 [CLP]

	Content cannot be resterilized after opening				
Incompatible products	Content cannot be resterilized after opening. Strong bases. Strong acids.				
Incompatible materials	: Sources of ignition. Direct (sun)light.				
Storage temperature	2 - 8°C				
7.3 Specific end use(s)					
See instruction for use delivered with the dev	ice.				
SECTION 8: Exposure controls/perso	onal protection				
8.1 Control parameters					
No additional information available.					
8.2 Exposure controls					
Appropriate engineering controls	: Handle in accordance with good industrial hygiene and safety. Avoid all unnecessary				
Personal protective equipment	exposure. : Wear fire/flame resistant/retardant clothing.				
Skin protection	: Complete suit protecting against chemicals, flame retardant antistatic protective clothing.				
	The type of protection must be selected according to the concentration and volume of the				
Hand protection	dangerous substance at the specific workplace.Wear protective gloves. Gloves must be inspected prior to use. Use proper glove removal				
hand protection	technique (without touching glove's outer surface) to avoid skin contact with this product.				
	Dispose of contaminated gloves after use in accordance with applicable laws and good				
	laboratory practices. Wash and dry hands.				
	The selected protective gloves have to meet the specifications of regulation EU 2016/425 and the standard EN374.				
Eye/Face protection	: Face shield and safety glasses. Use equipment for eye protection tested and approved				
	under appropriate government standards such as NIOSH (US) or EN 166 (EU).				
Respiratory protection	: Wear appropriate mask. Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK				
	(EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the				
	sole means of protection, use a full-face supplied air respirator. Use respirators and				
	components tested and approved under appropriate government standards such as NIOSH				
Other information	 (US) or CEN (EU). Do not eat, drink or smoke during use. Do not pipette liquid using a mouth pipette.

Carbon r	nonoxide. Carbon dioxide.		
SECTIO	N 11: Toxicological information	n	
11.1	Information on toxicological effe	ects	
Acute to	xicity (oral, dermal, inhalation)	:	Not classified.
			Extensive data on Sperm Survival Tests have demonstrated that the medium is not toxic.
Skin corrosion/irritation		:	Not classified
	eye damage/irritation	:	Not classified
Respiratory or skin sensitisation		:	Not classified
Germ cell mutagenicity		:	Not classified
Carcinogenicity		:	Not classified
Reproductive toxicity :		:	Not classified
Specific target organ toxicity (single exposure) :		:	Not classified
Specific target organ toxicity (repeated :		:	Not classified
exposure	2)		
Aspiration hazard		:	Not classified

Based on available data, the classification criteria are not met.

Human Serum Albumin: The plasma which is the source of the human serum albumin is : tested for antibodies to HIV and HCV and non-reactive for HbsAg, HBV RNA, HCV RNA, HIV-1 RNA and syphilis. The albumin agrees with all the requirements set forth by the European and United States health authority regarding safety.

Route of exposure: In normal use, there is no contact between SpermStore and the patient.
